Plantațiile vor avea statut de loturi de testare în condiții de producție. Gestionarii, printr-un contract de colaborare cu Comisia de Stat pentru Testarea Soiurilor de Plante, vor nominaliza o persoană responsabilă pentru testarea soiurilor și documentarea rezultatelor, conform metodologiilor aprobate. Destinația plantațiilor – producerea producției fără drept de multiplicare și comercializare a materialului săditor.

Suprafețele de plantare sînt limitate: 5 ha la un agent economic/localitate pentru un soi de cultură de viță de vie și de culturi pomicele; 10 ha pentru soiurile de nuc obișnuit, iar la soiurile de nuc pentru polenizare, nuc forestier și castan – în măsura necesității.

** Se recomandă numai pentru Zona de Sud a Republicii Moldova.
